One device - all possibilities

Wire **X**pert
4500

Our best cabling certifier

Certification to the highest
technological standards

Channel and permanent link
adaptors included

Save up to 3.000 Euro!

The cable certifier **WireXpert 4500** makes it possible to certify cabling systems that place extremely high demands on the company network or a datacenter." Extremely fast measurement technology and intuitive operation allow the network installer to perform quick and highly accurate acceptance testing.

The **WireXpert 4500**, as the only cable certifier in its class, is already prepared to support new cabling standards such as CAT 8 and ISO Class I & II.

Leading cable and component manufacturers are already using the **WireXpert 4500** in their development departments for the qualification of new CAT 8 (Class I & II) cabling systems.

Functional Characteristics

- First measurement device for certifications up to **2.500 MHz** with support for the CAT 8, Class I & II draft standards
- Latest cable certification for all standards: Class D / E / E_A / F / F_A, CAT 5 / 5e / 6 / 6A and the new draft standards CAT 8 (TIA) und Class I & II (ISO)
- Independent ETL verification for confirmation of measurement accuracy. Fulfills and exceeds requirements in accordance with ISO/IEC Level IIIe, IV, V, VI draft
- Wide variety of measurement modules available, e.g. for patch cord tests, industrial ethernet, coax, fiber optic cabling, MPO
- Supports expanded certification for fiber optic cables of 850/1300 nm (multimode) and 1310/1550 nm (single mode)
- eXport PC software for simple creation of comprehensive reports and documentation
