## CABLING CERTIFICATION TESTER

## WireXpert 500 series – Overview

WireXpert 500 is an affordable und upgradable cabling certification tester that can grow with your needs. Invest today only in options that are really needed and upgrade the device later when necessary. Options are available for either copper cabling certification up to CAT 6<sub>A</sub>/Class E<sub>A</sub>, a fiber optic multimode and singlemode tier 1 certification or a combined copper and fiber certification tester. The individual options can be easily upgraded with a license key. If you need in the future certification up to CAT 8/Class I and II, all models can be upgraded to that frequency range as well.

### Full flexibility with the WireXpert 500 series

You can now choose between three product versions:

- WireXpert 500 copper version
- WireXpert 500 fiber tester
- WireXpert 500-PLUS a combined fiber and copper-certifier

And when your requirements change? You can easily upgrade all the devices to test copper and fiber or as well to test CAT 8/Class I and II.

### Fast and simple for highest productivity

WireXpert 500 completes CAT 6<sub>A</sub> certification test in seconds. It offers intuitive navigation through the on screen menus, and generates professional reports through the accompanying eXport PC software.

eXport

### eXport Software: Professional Data Management

- WireXpert 500 includes eXport computer-based reporting software.
- eXport facilitates data management and generation of professional reports and warranty documents. In addition, eXport Software enables list-based testing, a hierarchical cable labelling scheme.
- With eXport it is also possible to correct measurements which were initially performed with incorrect measurement standards.
- With re-certification, the operator can apply the right measurement standards to the data retroactively.
- Data integrity remains because the date of the measurements does not change.

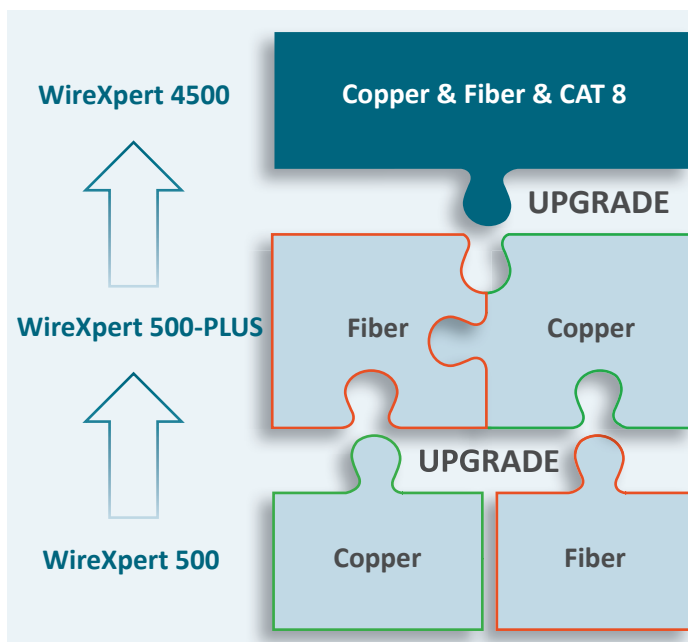

### Proven Accuracy

WireXpert 500 is based on measurement system independently verified by highly respected test laboratories including ETL.

### XpertCare Support Program

To protect the investment in cable certifiers, they require care and occasional maintenance. If you use your WireXpert constantly and are concerned about periods of downtime, we are offering you the XpertCare Support Program. XpertCare guarantees much more than the standard warranty, so that your investment is protected in the best possible manner.

## WireXpert 500 Copper Certifier

### Key Features

- Advanced cable certification up to 500 MHz
- Certifies to Industry standards – Class D/E/E<sub>A</sub> & Category 5e/6/6<sub>A</sub>
- Meets TIA and ISO Level III accuracy requirements
- Certification testing of Patch cords
- Industrial Ethernet testing with RJ45 and M12 connectivity, E2E link testing
- Advanced reporting and documentation
- Affordable certifier for premise cabling and Industrial Ethernet

### Easy to use and Ruggedized design

WireXpert 500 comes with an intuitive touch sensitive user interface, featuring bright color LCD screens designed for industrial, heavy duty usage. The Dual Control System (DCS™) – featuring identical devices for remote and local unit – makes it fast and simple to operate the test cycles. Whether used by two technicians or one person working alone, walking time between outlets is minimized.

### Industrial Ethernet cabling test

The WireXpert 500 industrial Ethernet cable test solution comprises various test cord kits for measurements in both channel and permanent link configurations and for E2E links (E2E adapters to be ordered separately) using industrial Ethernet connectors, such as the M12 D-coded connector. Available options also include for example test cord kits with an M12 X-coded interface and RJ45 interface, making it possible to effectively test 10-Gig ready Industrial Ethernet cabling.

### Coax cable test

WireXpert 500 also supports testing of coaxial cables for attenuation, length, resistance, delay and return loss with the optional coax test adapters.

### Fiber Upgrade

The WireXpert 500 can be upgraded to a WireXpert 500-PLUS to test both copper and fiber cabling

#### The upgrade includes:

- 1 year warranty
- Tier 1 fiber optic certification software license

### Adapters & Accessories for Copper Cabling Certification

- Pair of Class E<sub>A</sub>/CAT 6<sub>A</sub> Channel adapters
- Pair of Class E<sub>A</sub>/CAT 6<sub>A</sub> Permanent link adapters
- Pair of coax adapters
- Pair of CAT 5e/6/6<sub>A</sub> patch cord adapters
- Hard carrying case

*For more options and accessories, please contact your Softing IT Networks Reseller.*

### WireXpert 500 Kit

**WireXpert 500 LAN Copper Cable Certifier – Class D, E, E<sub>A</sub> and CAT 5e, 6, 6<sub>A</sub>**

#### Includes:

- 2 Measurement units, LOCAL and REMOTE
- Pair of CAT 6<sub>A</sub> channel adapters
- Pair of CAT 6<sub>A</sub> link adapters
- 2 headsets
- Li-Ion batteries
- Power supplies
- USB thumb drive
- Soft carrying case
- Calibration certificate and reporting software

WireXpert 500 Kit

### Upgrades for WireXpert 500 Copper Certifier

### WireXpert 4500 Upgrade

You can upgrade your copper certifier to test up to 2,500 MHz on twisted pair and coax copper cables up to Class D, E, E<sub>A</sub>, F<sub>A</sub>, I, II and CAT 5E, 6, 6<sub>A</sub>, 8 at anytime.

#### The upgrade includes:

- 1 year warranty
- CAT 8/Class I and II certification software license
- Calibration certificate

**Note:** Unit will need to be sent to a service center for upgrade

## WireXpert 500 Fiber Certifier

WireXpert 500 fiber only certifier with it's innovative design especially made for customers to certify fiber cabling in a much faster and easier way. It is also cost efficient and future proof and can be upgraded to WireXpert 4500. It has a Multimode EF version as well as a Quad version (MMEF + SM). It also has a MPO version available.

### Features

- Perform Tier 1 Certification for ISO/IEC and TIA 568 C.3 Standards
- Options available to certify length and loss for Singlemode at 1,310 nm-1,550 nm and Multimode EF cabling at 850 nm-1,300 nm
- Seamlessly integrates copper and fiber reports into eXport report generator software, allowing users to generate professional warranty and certification test reports
- Double your productivity with DCS™ technology by using each unit as an independent optical certifier

### Multimode and Singlemode Kits (WireXpert 500-MMEF\*/WireXpert 500-SM\*\*)

WireXpert optical loss kits are available for both Multimode\* and Singlemode\*\* fiber networks. The modular solution allows testing both types of networks on the same WireXpert unit with interchangeable adapters. Each module lets you perform very accurate loss and length measurements at two wavelengths meeting all the various standard requirements. Both kits support certification of horizontal as well as back-bone cabling by supporting dual wavelength measurement on each adapter.

### MPO Testing Kits (WireXpert 500-MPO)

WireXpert's versatile MPO testing solution enables datacenter IT managers to get quick and accurate assessment of the quality of MPO links. Additionally, it helps in performing incoming inspection of MPO components like cassettes. The key feature of this solution is a 5-second Autotest that includes a detection of fiber connection map and measurement of loss on each channel.

### Quad Kit (WireXpert 500-QU)

The WireXpert 500 Fiber Certifier is also available in a QUAD configuration. In this configuration, the fiber certifier will be shipped with a kit of multimode MMEF modules as well as singlemode modules.

### Available accessory: Digital fiber video microscope

Connector end-faces have to be inspected and evaluated to avoid contamination and destructive damage of the connector's contact zone before testing fiber-optic links and every time fiber optic connectors are mated

- Inspection and evaluation of connector end-face at the touch of a button
- Automated analysis compliant with IEC 61300-3-35
- Compatible with WireXpert and FiberXpert, connect via USB
- Adapters for the most common fiber-optic connectors are included in the delivery

## Upgrades for WireXpert 500 Fiber Certifier

### Copper Upgrade

You can always upgrade your fiber certifier to test also copper up to 500 MHz on twisted pair and coax copper cables up to Class D, E, E<sub>A</sub> and CAT 5e, 6, 6<sub>A</sub>

#### The upgrade includes:

- 1 year warranty
- Class E<sub>A</sub> certification software license
- Calibration voucher

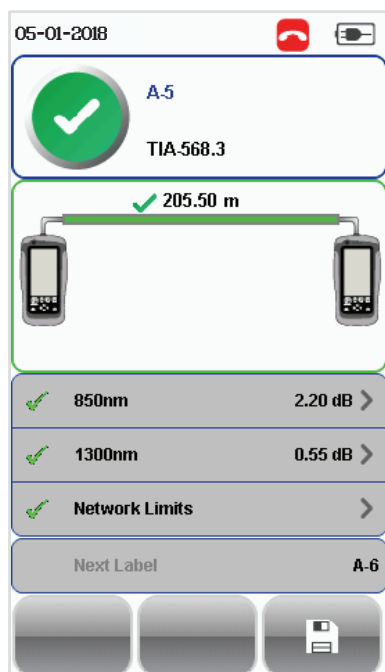

### WireXpert 4500 Upgrade

You can upgrade your fiber certifier to test up to 2,500 MHz on twisted pair and coax copper cables up to Class D, E, E<sub>A</sub>, F<sub>A</sub>, I, II and CAT 5E, 6, 6<sub>A</sub>, 8 at anytime.

#### The upgrade includes:

- 1 year warranty
- CAT 8/Class I and II certification software license
- Calibration certificate

**Note:** Unit will need to be sent to a service center for upgrade

MMEF Fiber AUTOTEST results

Detailed results for 850 nm

Detailed results for 1,300 nm

## WireXpert 500-Plus: Copper and Fiber Certifier

WireXpert 500-Plus for copper and fiber certification sets new standards for user friendliness, with touch screen graphical interface on both Local and Remote units. The innovative design combines superior measurement accuracy with low cost of ownership and ease of use. The WireXpert 500 units support measurements in the frequency range of 1-500 MHz and can be upgraded to the widest frequency range of up to 2,500 MHz.

### Features

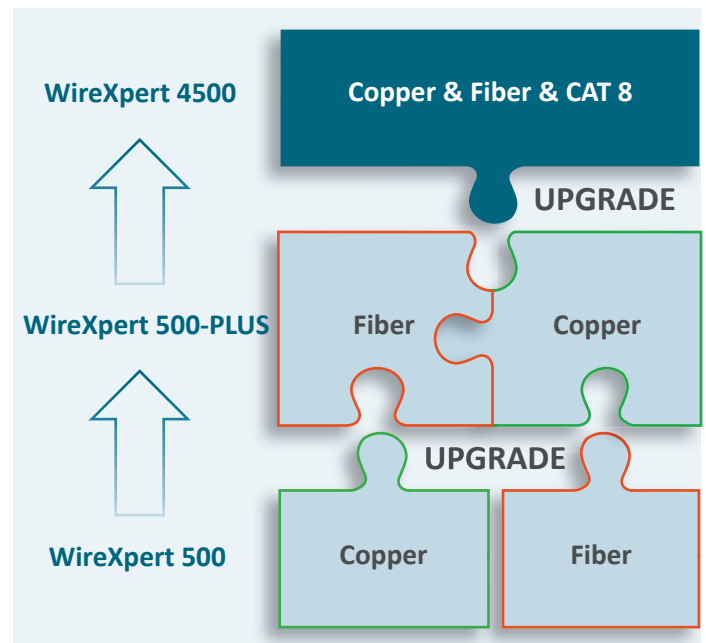

- Combined 500 MHz copper and MM + SM fiber optic tester
- Most advanced cable certification for all standards: Class D/E/E<sub>A</sub>, Category 5e/6/6A
- Accuracy independently verified by ETL
- Exceeds ISO and TIA Level III accuracy requirements
- Endorsed by companies worldwide
- Many measuring modules available e.g. patchcord testing, Industrial Ethernet, RJ45, MMC PRO
- Perform extended Fiber certification for 850-1,300 MM and 1,310-1,550 SM Fiber
- MPO Multimode
- Advanced reporting and documentation
- The only certifier supporting all data center, premise cabling and industrial ethernet requirements

### Easy to use and ruggedized design

WireXpert comes with an intuitive touch sensitive user interface, featuring bright color LCD screens designed for industrial, heavy duty usage. The Dual Control System (DCS™) – featuring identical devices for Local and Remote units – makes it really easy to operate the test cycles. Whether coordinated by two technicians or only one, walking time between outlets is minimized.

### Fast and simple for highest productivity

WireXpert completes CAT 6A, and fiber certification test in a few seconds. It offers intuitive navigation through the screens on the device, and generates professional reports through its PC software eXport.

### Upgrade for WireXpert 500-PLUS

#### WireXpert 4500 Upgrade

You can upgrade your copper/fiber certifier to test up to 2,500 MHz on twisted pair and coax copper cables up to Class D, E, E<sub>A</sub>, F<sub>A</sub>, I, II and CAT 5e, 6, 6A, 8 at anytime.

#### The upgrade includes:

- 1 year warranty
- CAT 8/Class I and II certification software license
- Calibration certificate

**Note:** Unit will need to be sent to a service center for upgrade

Parameter	Specification
<b>COPPER TESTING</b>	
Certification testing	TIA 568-C.2 CAT 5e, 6, 6A ISO/IEC 11801, EN 50173 Class D, E, E <sub>A</sub> Patch-cord CAT 5e, 6, 6A testing
Max cable length for dual-ended Autotest	500 m
Insertion cycles	Channel: 10,000 typical Permanent link: 5,000 typical
TEST PARAMETERS	As specified in TIA 1152, IEC 61935-1
Wiremap	
Loop Resistance	0 to 40 Ω, ±0.1 Ω
Length	0 to 500 m, ±0.5 m (dual-ended testing)
Propagation Delay and Delay Skew	0 to 5,000 ns, ±1 ns
Attenuation	0 to 70 dB, ±0.1 dB
Pair-to-Pair and Power-Sum NEXT	0 to 85 dB, ±0.2 dB
Pair-to-Pair and Power-Sum ACRF	0 to 85 dB, ±0.2 dB
Return Loss	0 to 40 dB, ±0.2 dB
ACRN, PSACRN	0 to 85 dB, ±0.5 dB
Advanced diagnostics	Time-domain fault Locator for RL and NEXT
Measurement accuracy	Exceeds TIA 1152 Level IIIe, IEC 61935 Level IIIe
Measurement frequency range	1-500 MHz
<b>FIBER TESTING - SM</b>	
Wavelengths	1,310 nm-1,550 nm
Connector type	SC, LC (optional adapter needed)
Test standard	TIA 568 C.3, IEC 14763-3
TEST PARAMETERS	
Loss	0 to 31 dB, ±0.2 dB
Length	0 to 20,000 m, ±1.5 m
Output power	-5 dBm to -9 dBm
Receiver sensitivity	-40 dBm
<b>FIBER TESTING - MM/MMEF</b>	
Wavelengths	850 nm-1,300 nm
Connector type	SC/FC-SC
Test standard	TIA 568 C.3, IEC 14763-3
TEST PARAMETERS	
Loss	0 to 24 dB, ±0.2 dB
Length	0 to 2,000 m, ±1.5 m
Dynamic range	24 dB/12 dB
Output power	-4 dBm to -10 dBm / -16 dBm to -20 dBm
Receiver sensitivity	-34 dBm / -40 dBm
Encircled-Flux (EF) compliance	IEC 61280-4-1 (MMEF)
VFL wavelength	650 nm (MMEF)
Power	0 dBm (MMEF)
<b>GENERAL SPECIFICATIONS</b>	
Interfaces	Probe Interface, RJ-45 Ethernet, USB host and device, talk set, power jack
Display	6" industrial LCD, touch sensitive area on both units
Enclosure	Ruggedized plastic with rubber over-mold, withstands 1.5 m drop test on hard surface
Remote unit abilities	View test results, save tests, start autotest
Power supply	AC 100-240 V to 12 V, 3A power adapter
Input over-voltage protection	Protected against Telco voltages
Battery	Removable and rechargeable Li-Ion
Battery capacity	>8 hours continuous operation
Internal storage capacity	>6,000 copper test results with full plot information for CAT 6A
External storage	USB Flash Drive
Dimensions	223 X 124 X 70 mm (including a 6A CH adaptor)
Weight	1 kg
Supported languages	TW, CS, EN, FI, FR, DE, IT, JA, KO, PL, PT, RU, ES, SV, TR
Calibration period	1 year
<b>ENVIRONMENTAL</b>	
Operating temperature	0 to 40 °C
Storage temperature	-20 to 60 °C
Relative humidity	10% to 80%
<b>MINIMUM SYSTEM REQUIREMENTS FOR REPORTING SOFTWARE</b>	
Microsoft Windows Vista/7/8/10, 32 or 64 bits	
Intel Core 2 Duo, 2 GHz	
200 MB of free disk space	
1 GB RAM	
Microsoft.NET Framework 4.0
