Subject: Multimedia Connect approval letter for the WireXpert 4500 Certifier

Dear Thomas,

Multimedia Connect has extensively evaluated the measurement efficiency of the WireXpert 4500 Cable Certifier in the laboratories as well as in-field testing. The test results obtained with this field tester are homogeneous and track very closely with tests performed thanks to laboratory equipment such as our Cobalt cable analyzer. The WireXpert 4500 is approved for Multimedia Connect authorized installers and contractors to submit test results for the warranty program.

Moreover, Multimedia Connect approves the WireXpert 4500 equipped with the eXport 7xx software or Firmware 7xx for use in field-testing of Multimedia Connect copper range (from Cat.5e / Class D to Cat. 6A / Class EA) Cabling Systems and beyond.

We look forward to a continued cooperation and future opportunities to evaluate Softing IT Networks products that can be used to test and certify our cabling installations in the field.

Sincerely Regards,

Rachid Ben Ali
Product Manager
