Subject: Psiber Data WireXpert™ Approval

Effective immediately, METZ CONNECT is pleased to announce the approval of the WireXpert WX4500. This approval is based upon evaluation of the WireXpert versus network analyzer by METZ CONNECT Labs.

WireXpert is approved for use in both Permanent Link and Channel certification testing with all of our Class F_A, Class F, Category 6_A/Class E_A, Category 6/Class E and Category 5e/Class D system warranties.

For Class F_A systems, the approval includes all parameters to the frequency range of 1000 MHz. WireXpert measurements above 1000 MHz were also found to have good correlation with network analyser, and can be used for information.

The following configuration of WireXpert is required.

WX4500 software version 4.9 or higher
ReportXpert™ software version 4.9 or higher

Channel testing for Class F _A , Class F	WX_AD_TERACH2 – pair of TERA channel adapters
Permanent Link testing for Class F _A , Class F	WX_AD_TERAL2 – pair of TERA Permanent Link adapters
Channel testing for Category 6 _A /Class E _A , Category 6/Class E and Category 5e/Class D	WX_AD_6ACH2 - pair of CAT 6 _A channel adapters
Permanent Link testing for Category 6 _A /Class E _A , Category 6/Class E and Category 5e/Class D	WX_AD_6ALKIT2 – pair of CAT 6 _A permanent link kits: each consisting of a CAT 6 _A permanent link adapter WX_AD_6ALINK and a Permanent Link test cord WX_AC_6ALCORD

Sincerely,
